🎓 EDUCATION

Huaqiao University Xiamen, China B.Eng. in Artificial Intelligence (School of Computer Science and Technology) **Sept. 2023 – Present**

- **Overall Rank:** 1/40 **Honors:** National Scholarship (2024, Top 0.4% nationwide in China)
- **GPA Rank:** 4/40

🗣️ LANGUAGE PROFICIENCY

- **English:** IELTS 7.5
- **French:** Intermediate (CEFR B1) level

🔬 RESEARCH EXPERIENCE

Peking University Research Intern (Advisors: Prof. He Sun, Wenzheng Chen) **June 2025 – Present**

- **Project: Video Generation and Inverse Problems.** Investigated distillation-based acceleration strategies for diffusion models to address slow inference speeds in real-time video reconstruction.
- **Key Contributions:** Implemented the **InstantViR** framework. Leveraged Distribution Matching Distillation (DMD) to distill pre-trained video diffusion models into a One-step Generator. Combined a Causal Autoregressive Solver with an efficient LeanVAE to achieve real-time reconstruction for video deblurring, inpainting, and super-resolution.
- 📎 **[CVPR 2026 Highlight]** Weimin Bai*, **Suzhe Xu***, Yiwei Ren, Jinhua Hao, Ming Sun, Wenzheng Chen, He Sun. *InstantViR: Real-Time Video Inverse Problem Solver with Distilled Diffusion Prior.* arXiv:2511.14208, 2025. [\[arXiv\]](#) (*Co-first authors)
- 📎 **Suzhe Xu**, Weimin Bai, Jinhua Hao, Ming Sun, Wenzheng Chen, He Sun. *Bridging Distillation Gaps for Real-Time Video Inverse Problem Solvers.*
Manuscript in preparation, targeting IEEE Transactions on Multimedia, Special Issue on Multimodal Video Compression and Reconstruction (submission: May 2026).

Kuaishou Technology Algorithm Research Intern **Jan. 2026 – Present**

- **Focus:** Representation Learning, Video Generation, and cutting-edge Agent algorithms.
- **Project: KAT-Coder-V2 (Agentic Model).** Contributed to a "Specialize-then-Unify" paradigm decomposing agentic coding into 5 expert domains. Developed MCLA for stabilizing MoE RL training and **Tree Training** for trajectory optimization, achieving a **6.2x speedup**.
- 📎 **[Technical Report]** Fengxiang Li, ..., **Suzhe Xu**, ..., Ming Sun, Lin Ye, Bin Chen. *KAT-Coder-V2 Technical Report.* arXiv:2603.27703, 2026. [\[arXiv\]](#)

Huaqiao University Research Assistant (Advisor: Prof. Jialin Peng) **Sept. 2024 – June 2025**

- **Focus:** Multimodal Image Segmentation and medical imaging adaptation of the Segment Anything Model (SAM).
- Investigated explicit decision-level selection mechanisms to improve prompt-based segmentation consistency.

🏆 COMPETITIONS & AWARDS

- 🏆 **Outstanding Camper**, AI Summer Camp of Datawhale · Alibaba Cloud Tianchi.
- 🏆 **First Prize (Provincial)**, Contemporary Undergraduate Mathematical Contest in Modeling (CUMCM) | **Team Leader**.

🚀 PROJECT EXPERIENCE

- **National Undergraduate Innovation Training Program** **Deputy Lead**
 - Designed and implemented user permission modules; utilized Docker-Compose for one-click deployment and full-stack system optimization.
